

Dear FCC,

I am sending this comment to you on the behalf of KLOVE radio.

Please reconsider the proposal that allows the Low Power FM stations to take priority over current FM translator service. Thereby forcing FM translator services off the air.

I have lived in rural as well as urban areas. Many diverse populations value KLOVE and other regional and national services. The ability of the diverse populations to enjoy the programs utilizing the FM translators needs to be preserved.

KLOVE provides a voice for the mainstream Christian population, and a message of encouragement for the day to day living. The quiet and subtle messages expressed in the words and songs on this station have encouraged thousands of people to choose healthier responses to life's realities.

Please consider this and the other stations that will impact the listening public by their loss, if they are forced off the air.

Please consider alternatives to this proposed enactment, even to the point of creating provisions for the long established services supported by the listening public.

Thank-you for your consideration in this matter,

Sincerely,

Lorrie Amitrano
